Below are listed, by page number, minor corrections for my master's thesis. If you find any additional errors, please notify me by email to *contact@mneyrane.com*.

Page 33, Algorithm 1: NESTA for QCBP, although only displayed here for reference, has incorrect pseudocode for line numbers 5 and 9. They should be:

$$\text{Line 5: } \mathbf{x}_n \leftarrow \frac{\lambda}{(\lambda + 1)c} \mathbf{A}^* (\mathbf{y} - \mathbf{A}\mathbf{q}) + \mathbf{q}$$

$$\text{Line 9: } \mathbf{v}_n \leftarrow \frac{\lambda}{(\lambda + 1)c} \mathbf{A}^* (\mathbf{y} - \mathbf{A}\mathbf{q}) + \mathbf{q}$$
